

CDC Foundation Active Programs

October 1, 2020 – September 30, 2021

This document provides a list of CDC Foundation programs that were active between October 1, 2020, and September 30, 2021. Each program listing includes program name, description, funding partner(s), dates for the programs and amounts of the funding provided during the fiscal year. Where applicable, funding partners from previous years are listed. Note that the dates used for active projects match CDC's fiscal year and not the CDC Foundation's fiscal year, which runs July 1 through June 30.

Start Date	End Date	Program Name	Program Description	Funding Partner (* Indicates a funding partner in CDC fiscal year)	CDC Fiscal Year 2021		
					Committed Award	Cash	Cumulative Funding (All Years)
6/1/2020	5/31/2022	500 Cities and Beyond	To expand the 500 Cities Project to provide high-quality, small-area health data to other geographies in the United States.				\$1,153,709.00
				Robert Wood Johnson Foundation			
6/1/2018	6/30/2021	500 Cities Project - Phase 2	To promote chronic disease prevention and health promotion for the 500 largest American cities. This second phase of this project will provide updated 2016 and 2017 census tract-level data and will provide enhancements to the interactive City Health Indicator website.				\$883,150.00
				Robert Wood Johnson Foundation			
7/1/2017	9/30/2022	Accelerating Development of Global Costed Plans	To assist countries with developing costed, funded plans that address the gaps identified by the World Health Organization-led Joint External Evaluation (JEE) process, with the goal of helping countries reach compliance with the International Health Regulations. The CDC Foundation and CDC will support eight countries as they develop draft costed plans and help them identify funding to implement the plans.				\$3,535,527.00
				International Union Against Tuberculosis and Lung Disease Vital Strategies*	\$493,459.00		
9/1/2021	7/31/2022	Accelerating the Impact of Erase Maternal Mortality	To accelerate innovation and extend impact on community-based actions emphasizing cardiovascular conditions and other leading causes of maternal mortality.	Centers for Disease Control and Prevention*	\$669,204.00		\$669,204.00
9/1/2021	7/31/2022	Addressing Social Determinants of Health through How Right Now	To increase awareness of the mental health challenges some Americans are experiencing related to social determinants of health, chronic disease and the COVID-19 pandemic.	Centers for Disease Control and Prevention*	\$500,000.00		\$500,000.00
9/1/2015	On-going	AIDS and Kaposi's Sarcoma in Uganda	To perform Human Herpesvirus-8 (HHV-8) diagnostics on specimens from a UCSF study on antiretroviral therapy for patients with AIDS and Kaposi's sarcoma in Uganda.	Centers for Disease Control and Prevention*	\$500,000.00		\$63,000.00
				University of California, San Francisco			
8/1/2019	7/31/2021	Analysis and Dissemination of Population-Based Sickle Cell Disease (Year 2)	To build the capacity of a state to conduct longitudinal data collected for sickle cell disease to inform better care and treatment practices for sickle cell disease patients and providers.	Centers for Disease Control and Prevention			\$375,000.00
8/1/2020	7/31/2022	Analysis and Dissemination of Population-Based Sickle Cell Disease (Year 3)	To build the capacity of a state to conduct longitudinal data collected for sickle cell disease to inform better care and treatment practices for sickle cell disease patients and providers.	Centers for Disease Control and Prevention			\$150,000.00
8/1/2021	7/31/2022	Analysis and Dissemination of Population-Based Sickle Cell Disease (Year 4)	To build the capacity of a state to conduct longitudinal data collected for sickle cell disease to inform better care and treatment practices for sickle cell disease patients and providers.	Centers for Disease Control and Prevention*	\$155,800.00		\$155,800.00
10/1/2020	10/29/2022	Analysis of Immunogenicity and Shedding of New Oral Poliovirus Vaccines	To provide laboratory support for the analysis of immunogenicity and shedding of new oral Poliovirus vaccines in human clinical trials and related issues for polio endgame.	Bill & Melinda Gates Foundation*	\$2,673,690.00		\$2,673,690.00
7/6/2016	7/5/2022	Assessment of Occupational Fall Hazards	To improve worker safety while using mast climbing work platforms.	Job-Site Safety Institute			\$100,000.00
8/1/2019	8/31/2021	Assisted Reproductive Technology and Risk of Autism	To understand the relationship between assisted reproductive technology (ART) and risk of autism and other development disorders.	Columbia University			\$185,148.00
9/20/2019	3/31/2024	Biomarker Discovery through Serum Epitope Repertoire Analysis (SERA)	To optimize interventions and tools to enable the elimination and eradication of prioritized Neglected Tropical Diseases (NTDs) as identified by the London Declaration.	Bill & Melinda Gates Foundation*	\$747,946.00		\$933,490.00
4/1/2021	7/31/2022	Building Capacity of CBOs to Address COVID-19 Response Needs	To build the capacity of public health departments in state, territorial and local health departments to provide vaccination services to their populations, especially communities of color.	Centers for Disease Control and Prevention*	\$20,000,000.00		\$20,000,000.00
9/29/2018	9/29/2021	Building Capacity to Review and Prevent Overdose Deaths During and Pregnancy	To build state capacity within the existing jurisdiction-based maternal mortality review committee infrastructure to review and prevent overdose deaths during and after pregnancy.	Centers for Disease Control and Prevention			\$2,045,525.00
8/1/2019	7/31/2022	Building Community Support for Veteran Suicide Prevention	To build capacity of community-based organizations serving U.S. military veterans to help prevent suicide among veterans by exploring gaps and opportunities around an upstream approach to veteran suicide prevention.	Centers for Disease Control and Prevention			\$140,000.00
8/1/2019	7/31/2021	Building NGO Capacity to Prevent Veteran Suicide (Year 2)	To build capacity of community-based veterans serving organizations to build capacity of these organizations to test and implement CDC's veteran suicide prevention strategies.	Centers for Disease Control and Prevention			\$300,000.00
8/1/2020	7/31/2022	Building NGO Capacity to Prevent Veteran Suicide (Year 3)	To build capacity of community-based veterans serving organizations to build capacity of these organizations to test and implement CDC's veteran suicide prevention strategies.	Centers for Disease Control and Prevention			\$300,000.00
8/1/2021	7/31/2022	Building NGO Capacity to Prevent Veteran Suicide (Year 4)	To build capacity of community-based veterans serving organizations to build capacity of these organizations to test and implement CDC's veteran suicide prevention strategies.	Centers for Disease Control and Prevention*	\$300,000.00		\$300,000.00
8/1/2018	7/31/2022	Building the Evidence Base for Infectious Human Norovirus	To determine the persistence of infectious human norovirus using a novel stem-cell derived system of stainless steel coupons and carpet in long-term care facilities.	Clemson University			\$375,000.00
7/3/2019	6/1/2022	Burkina Faso Micronutrient Survey	To design and implement a high-quality comprehensive nationally representative micro-nutrient status household survey in Burkina Faso.				\$2,000,000.00

					CDC Fiscal Year 2021		
Start Date	End Date	Program Name	Program Description	Funding Partner (* Indicates a funding partner in CDC fiscal year)	Committed Award	Cash	Cumulative Funding (All Years)
				Bill & Melinda Gates Foundation			
8/1/2018	7/31/2022	Capacity Building for Public Health Analysts in the Overdose Response Strategy	To build the capacity of the Overdose Response Strategy (ORS) program through sourcing, hiring, training and providing technical assistance to public health analysts in 50 states, Puerto Rico and the U.S. Virgin Islands.				\$12,665,000.00
				Centers for Disease Control and Prevention*	\$7,200,000.00		
4/30/2021	4/29/2022	CBO Support to Increase Equitable Vaccination Coverage	To support community-based organizations to increase vaccination coverage across different racial and ethnic adult populations currently experiencing disparities.				\$25,660,048.00
				Centers for Disease Control and Prevention*	\$25,660,048.00		
6/22/2020	2/28/2022	Cholera Surveillance in Haiti	To strengthen the surveillance system for the elimination of cholera in Haiti.				\$620,400.00
				World Health Organization			
7/17/2015	7/31/2021	Chronic Hepatitis B Virus Infection in Tanzania	To implement and evaluate the feasibility of a care and treatment model for persons infected with chronic hepatitis B virus in resource-limited settings.				\$439,252.74
				Gilead Sciences, Inc.			
8/1/2020	7/31/2021	CityHealth Expansion Support	To support CityHealth, an initiative of the deBeaumont Foundation and Kaiser Permanente, to provide updates to their website which helps city leadership drive improvements in their communities through evidence-based policy solutions.				\$150,000.00
				Centers for Disease Control and Prevention			
3/31/2013	11/30/2021	Clinical Trials Unit for HIV/AIDS and TB Research	To facilitate formation of a Clinical Trials Unit for HIV/AIDS and tuberculosis research to advance therapy and prevention. If the interventions in the clinical trials are determined safe and effective, they will add to the options available to prevent and control these diseases of global significance.				\$2,447,879.75
				Emory University*	\$25,000.00		
9/1/2021	11/30/2021	Clinical Trials Unit Thailand Y8 Increment 2/2	To facilitate formation of a Clinical Trials Unit for HIV/AIDS and tuberculosis research to advance therapy and prevention. If the interventions in the clinical trials are determined safe and effective, they will add to the options available to prevent and control these diseases of global significance.				\$25,000.00
				Emory University*	\$25,000.00		
3/1/2016	12/31/2020	Combination HIV Prevention Intervention in Thailand	To conduct a study to assess the feasibility of a combination HIV preventive intervention with and without daily Truvada PrEP for HIV uninfected young men who have sex with men in Bangkok, Thailand.				\$1,744,255.39
				Johns Hopkins University*	\$73,751.63		
10/1/2017	2/22/2021	Connecticut Thyroid Health Study	To evaluate whether exposure to persistent organic pollutants including polybrominated diphenyl ethers, polychlorinated biphenyls and organochlorine pesticides increases the risk of thyroid cancer.				\$162,760.50
				Yale University			
4/2/2020	9/30/2022	Consolidating Tuberculosis Analytics and Evidence Tools	To create comprehensive documentation on effective and efficient country engagement approaches for tuberculosis data and evidence-related activities.				\$709,180.00
				Bill & Melinda Gates Foundation			
2/5/2021	6/30/2022	Contraceptive Use Module for States	To support state use of contraceptive use assessment within the family planning module on the Behavioral Risk Factor Surveillance System. This effort will allow for the development of state-level estimates of the methods of contraception used and reasons for not using contraception.				\$1,705,986.00
				Guttmacher Institute*	\$1,705,986.00		
6/1/2020	1/31/2025	Controlling Mosquito Vectors of Malaria	To develop data that will contribute to an assessment of whether transgenic mosquitoes could be effectively and safely deployed to control natural populations of malaria vectors.				\$784,362.87
				Imperial College London*	\$479,010.99		
4/1/2021	6/30/2023	COVID-19 Staffing Retention - AZ	Continued COVID-19 emergency response support for CDC Foundation personnel retention and recruitment efforts with local health departments.				\$2,838,599.82
				Arizona Department of Health Services*	\$2,838,599.82		
4/1/2021	3/31/2022	COVID-19 Staffing Retention - GA	Continued COVID-19 emergency response support for CDC Foundation personnel retention and recruitment efforts with local health departments.				\$1,269,480.94
				Georgia Department of Public Health*	\$1,269,480.94		
7/1/2021	9/30/2021	COVID-19 Staffing Retention - Navajo Nation	Continued COVID-19 emergency response support for CDC Foundation personnel retention to support surge staffing and pandemic response efforts in the Navajo Nation.				\$231,698.00
				Navajo Department of Health*	\$231,698.00		
4/1/2021	5/31/2022	COVID-19 Staffing Retention and Recruitment - AL	Continued COVID-19 emergency response support for CDC Foundation personnel retention and recruitment efforts with local health departments.				\$510,260.85
				Alabama Department of Public Health*	\$510,260.85		
6/1/2021	5/31/2022	COVID-19 Staffing Retention and Recruitment - AL Information Technology	Continued COVID-19 emergency response support for CDC Foundation personnel retention and recruitment efforts with local health departments.				\$720,187.64
				Alabama Department of Public Health*	\$720,187.64		
4/1/2021	7/31/2023	COVID-19 Staffing Retention and Recruitment - CA	Continued COVID-19 emergency response support for CDC Foundation personnel retention and recruitment efforts with local health departments.				\$18,306,857.00
				California Department of Public Health*	\$18,306,857.00		
4/1/2021	3/31/2022	COVID-19 Staffing Retention and Recruitment - Chicago	Continued COVID-19 emergency response support for CDC Foundation personnel retention and recruitment efforts with local health departments.				\$715,290.90
				Chicago Department of Public Health*	\$715,290.90		
7/1/2021	6/30/2022	COVID-19 Staffing Retention and Recruitment - CRIHB	Continued COVID-19 emergency response support for CDC Foundation personnel retention and recruitment efforts with local health departments.				\$502,687.69
				California Rural Indian Health Board, Inc.*	\$502,687.69		
4/1/2021	6/30/2022	COVID-19 Staffing Retention and Recruitment - CT	Continued COVID-19 emergency response support for CDC Foundation personnel retention and recruitment efforts with local health departments.				\$1,034,635.05
				State of Connecticut Department of Public Health*	\$1,034,635.05		
7/1/2021	6/30/2022	COVID-19 Staffing Retention and Recruitment - Detroit	Continued COVID-19 emergency response support for CDC Foundation personnel retention and recruitment efforts with local health departments.				\$3,078,089.64
				City of Detroit*	\$3,078,089.64		
4/1/2021	9/30/2021	COVID-19 Staffing Retention and Recruitment - HI	Continued COVID-19 emergency response support for CDC Foundation personnel retention and recruitment efforts with local health departments.				\$230,674.84
				Hawai'i State Department of Health*	\$230,674.84		
4/1/2021	3/31/2022	COVID-19 Staffing Retention and Recruitment - MD	Continued COVID-19 emergency response support for CDC Foundation personnel retention and recruitment efforts with local health departments.				\$572,113.13

					CDC Fiscal Year 2021		
Start Date	End Date	Program Name	Program Description	Funding Partner (* Indicates a funding partner in CDC fiscal year)	Committed Award	Cash	Cumulative Funding (All Years)
7/1/2021	7/31/2023	COVID-19 Staffing Retention and Recruitment - MI	Continued COVID-19 emergency response support for CDC Foundation personnel retention and recruitment efforts with local health departments.	Maryland Department of Health*	\$572,113.13		\$2,863,494.11
4/1/2021	3/31/2022	COVID-19 Staffing Retention and Recruitment - NC	Continued COVID-19 emergency response support for CDC Foundation personnel retention and recruitment efforts with local health departments.	Michigan Department of Health and Human Services*	\$2,863,494.11		\$2,251,272.00
4/1/2021	11/30/2022	COVID-19 Staffing Retention and Recruitment - NJ	Continued COVID-19 emergency response support for CDC Foundation personnel retention and recruitment efforts with local health departments.	North Carolina Department of Health and Human Services*	\$2,251,272.00		\$2,117,836.20
4/1/2021	6/30/2022	COVID-19 Staffing Retention and Recruitment - NM	Continued COVID-19 emergency response support for CDC Foundation personnel retention and recruitment efforts with local health departments.	New Jersey Department of Health*	\$2,117,836.20		\$1,472,706.24
7/1/2021	6/15/2022	COVID-19 Staffing Retention and Recruitment - ND	Continued COVID-19 emergency response support for CDC Foundation personnel retention and recruitment efforts with local health departments.	New Mexico Department of Health*	\$1,472,706.24		\$285,878.42
2/15/2021	12/31/2021	COVID-19 Staffing Retention and Recruitment - NV	Continued COVID-19 emergency response support for CDC Foundation personnel retention and recruitment efforts with local health departments.	North Dakota Department of Health*	\$285,878.42		\$4,610,072.00
9/1/2021	6/30/2023	COVID-19 Staffing Retention and Recruitment - NV Crisis Response	Continued COVID-19 emergency response support for CDC Foundation personnel retention and recruitment efforts with local health departments.	Nevada Department of Health and Human Services, Division of Public and Behavioral Health*	\$4,610,072.00		\$5,389,062.00
7/1/2021	5/31/2023	COVID-19 Staffing Retention and Recruitment - NV Health Disparities	Continued COVID-19 emergency response support for CDC Foundation personnel retention and recruitment efforts with local health departments.	Nevada Department of Health and Human Services, Division of Public and Behavioral Health*	\$5,389,062.00		\$1,487,814.00
7/1/2021	6/30/2022	COVID-19 Staffing Retention and Recruitment - NY	Continued COVID-19 emergency response support for CDC Foundation personnel retention and recruitment efforts with local health departments.	Nevada Department of Health and Human Services, Division of Public and Behavioral Health*	\$1,487,814.00		\$1,344,252.00
4/1/2021	5/31/2022	COVID-19 Staffing Retention and Recruitment - SD	Continued COVID-19 emergency response support for CDC Foundation personnel retention and recruitment efforts with local health departments.	New York State Department of Health/Health Research Inc.*	\$1,344,252.00		\$678,249.58
3/1/2021	2/28/2022	COVID-19 Staffing Retention and Recruitment - USVI	Continued COVID-19 emergency response support for CDC Foundation personnel retention and recruitment efforts with local health departments.	South Dakota Department of Health*	\$678,249.58		\$3,035,281.09
7/1/2021	6/30/2022	COVID-19 Staffing Retention and Recruitment - WA	Continued COVID-19 emergency response support for CDC Foundation personnel retention and recruitment efforts with local health departments.	US Virgin Islands Department of Health*	\$3,035,281.09		\$214,671.16
4/1/2021	3/31/2022	COVID-19 Staffing Retention and Recruitment - WI	Continued COVID-19 emergency response support for CDC Foundation personnel retention and recruitment efforts with local health departments.	Washington Department of Health*	\$214,671.16		\$723,573.90
4/1/2021	1/31/2023	COVID-19 Staffing Retention and Recruitment - WV	Continued COVID-19 emergency response support for CDC Foundation personnel retention and recruitment efforts with local health departments.	Wisconsin Department of Health Services*	\$723,573.90		\$5,526,416.01
7/1/2021	6/30/2023	COVID-19 Staffing Retention and Recruitment - WV Immunization	Continued COVID-19 emergency response support for CDC Foundation personnel retention and recruitment efforts with local health departments.	West Virginia Department of Health and Human Resources, Bureau for Public Health*	\$5,526,416.01		\$1,585,089.66
4/1/2021	3/31/2022	COVID-19 Staffing Retention and Recruitment - WV Joint Interagency Task Force	Continued COVID-19 emergency response support for CDC Foundation personnel retention and recruitment efforts with local health departments.	West Virginia Department of Health and Human Resources, Bureau for Public Health*	\$1,585,089.66		\$299,083.84
11/1/2016	12/31/2021	Cryptococcal Screening and Treatment	To determine feasibility and cost of prevention of Cryptococcal disease in Botswana via the implementation of a 'screen-and-treat' strategy. This strategy will support and guide policymakers in the rollout and sustained management of a successful 'screen-and-treat' program. Also, to provide a cost analysis and model for prevention of Cryptococcal disease in Uganda via the implementation of a 'screen-and-treat' strategy. This study also seeks to answer key medical questions regarding the optimal use and treatment decisions following screening.	West Virginia Department of Health and Human Resources, Bureau for Public Health*	\$299,083.84		\$3,435,600.00
12/12/2019	6/30/2022	Cryptococcal Screening and Treatment Continuation	To continue implementation of a cryptococcal meningitis screen and treat program in nine African countries to preemptively treat patients and avoid potential infection or death.	Pfizer Inc.			\$1,948,482.00
1/28/2020	7/28/2021	Data for Change	To improve learning outcomes for female children and adolescents by focusing on the intersection between violence and educational access in humanitarian settings.	Pfizer Inc.			\$159,373.28
3/1/2015	3/31/2023	Data for Health	To assist 20 low-and middle-income countries across Latin America, Asia and Africa in strengthening their public health data systems and data use for critical policy-making decisions.	Together for Girls, Inc.			\$47,810,983.00
8/1/2017	12/31/2020	Development of Antiretroviral Rings for HIV Prevention	To evaluate a topical HIV prevention product using a nonhuman primate, repeat low dose model to define activity and toxicity of an intravaginal ring product.	Bloomberg Philanthropies*	\$7,350,000.00		\$190,239.00
6/13/2019	On-going	Digital Bridge Information Exchange between Healthcare Sector and Public Health	To use a public-private partnership model that includes significant collaboration among three major stakeholder communities (healthcare providers, healthcare IT vendors and public health) to promote crucial health data interoperability.	Oak Crest Institute of Science*	\$25,734.00		\$4,788,828.00
				Sergey Brin Family Foundation			

						CDC Fiscal Year 2021		
Start Date	End Date	Program Name	Program Description	Funding Partner (* Indicates a funding partner in CDC fiscal year)	Committed Award	Cash	Cumulative Funding (All Years)	
11/1/2019	9/30/2022	Early Childhood Nutrition Surveillance Optimization	To optimize surveillance and measurement of early child health by adding questions on diet, feeding practices, screen-time and/or activity to the National Survey of Children's Health, and to assess the availability of training products or tools for early care and education or home visiting settings on appropriate measurement of key child behaviors and healthy growth.				\$1,968,863.87	
				Robert Wood Johnson Foundation				
8/1/2021	7/31/2022	Early Childhood Nutrition Surveillance Optimization (Extension)	To optimize surveillance and measurement of early child health by adding questions on diet, feeding practices, screen-time and/or activity to the National Survey of Children's Health, and to assess the availability of training products or tools for early care and education or home visiting settings on appropriate measurement of key child behaviors and healthy growth.				\$485,168.00	
				Robert Wood Johnson Foundation*	\$485,168.00			
9/1/2019	11/1/2022	Eliminating Lymphatic Filariasis in American Samoa	To stop the spread of lymphatic filariasis and alleviate the suffering of those impacted by providing technical support to the department of health with the goal of eliminating lymphatic filariasis in American Samoa by 2025.				\$1,000,000.00	
				Margaret A. Cargill Philanthropies				
4/1/2020	7/31/2022	Emergency Response Fund-Coronavirus Federal	To partner with public health authorities to respond to the COVID-19 pandemic through distribution of personal protective equipment for front-line workers, testing support, hiring surge staff for health departments, sponsoring national communication campaigns, aiding long-term care facilities and community-based organizations serving vulnerable populations and supporting research.				\$68,939,536.86	
				Centers for Disease Control and Prevention*	\$23,000,000.00			
11/11/2019	11/10/2022	EmPOWERED Health Program	To improve cancer outcomes by educating and empowering people to become proactive participants in their own health and improve patient-physician conversations and shared decision making.				\$2,000,000.00	
				Amgen Inc.				
11/14/2019	On-going	Ending Tuberculosis in Vietnam	To move towards TB elimination through scaling up demonstrated effective case-finding and treatment methods for both active and latent TB in Ho Chi Minh City based on lessons learned from the TB Reach Zero TB Viet Nam (ZTV) project.				\$200,000.00	
				Taiwan Centers for Disease Control, Ministry of Health and Welfare, ROC				
5/1/2014	On-going	Endocrine Disruptors and Uterine Fibroids	To evaluate exposure to phthalates, polychlorinated biphenyls (PCB), and bisphenol A (BPA) in relation to incident uterine leiomyomata (UL) in an established cohort of women from Study of Environment Lifestyle and Fibroids (SELF).				\$875,012.00	
				Boston University				
8/1/2021	7/31/2022	Engaging the Arts to Build Vaccine Confidence	To fund up to 30 arts-related organizations to build vaccine confidence in U.S. communities with lower vaccination rates.				\$2,500,000.00	
				Centers for Disease Control and Prevention*	\$2,500,000.00			
8/1/2021	7/31/2022	Enhancing Community Acceptance of Syringe Services Programs Through MicroInfluencing	To understand how syringe service programs have been successfully implemented in the past within different jurisdictions and identify what standardized, scientifically peer reviewed evaluation measures exist to measure the effectiveness of interventions.				\$1,600,000.00	
				Centers for Disease Control and Prevention*	\$1,600,000.00			
8/1/2021	7/31/2022	Enhancing Community Capacity to Support HIV Self-Testing	To build and expand the capacity of community-based organizations to implement and improve HIV self-testing programs.				\$9,000,000.00	
				Centers for Disease Control and Prevention*	\$9,000,000.00			
8/1/2020	7/31/2022	Environmental Control of SARS-CoV-2 in Food Establishments	To provide an evidence base for the food service industry to help navigate the COVID-19 pandemic.				\$214,588.00	
				University of Arkansas at Little Rock				
10/1/2017	11/30/2021	Environmental Phenols in Inner City Children	To investigate the association between exposure to phenols with antimicrobial properties and asthma morbidity in inner city African American children.				\$138,524.50	
				University of Maryland, Baltimore				
3/1/2020	11/30/2023	Evaluating and Improving WASH Efforts in Niger	To increase access to effective water, sanitation and hygiene (WASH) infrastructure in healthcare facilities in Niger.				\$121,562.00	
				WorldVision Inc.				
2/22/2021	1/31/2025	Evaluating the Impact of the Pneumococcal Conjugate Vaccine Intro in Indonesia	To conduct an evaluation before and two years after the introduction of the Pneumococcal conjugate vaccines (PCV) to study the direct and indirect impact of PCV introduction on vaccine-type pneumococcal carriage among healthy Indonesian children under five years of age.				\$2,297,786.00	
				Bill & Melinda Gates Foundation*	\$2,297,786.00			
9/30/2021	9/30/2024	Evaluating Tuberculosis Preventive Treatment in People Living with HIV	To determine the impact of Tuberculosis preventative treatment among populations living with HIV.				\$4,766,680.00	
				Bill & Melinda Gates Foundation*	\$4,766,680.00			
2/1/2019	12/31/2020	Evaluation of Malaria Specimen Bank - Phase III	To analyze blood samples to determine what species of human malaria parasites are present in the specimens as part of an evaluation of a global malaria specimen bank.				\$818,711.99	
				World Health Organization				
1/29/2020	4/30/2021	Evaluation of Malaria Specimen Bank - Phase IV	To analyze blood samples to determine what species of human malaria parasites are present in the specimens as part of an evaluation of a global malaria specimen bank.				\$263,768.61	
				World Health Organization				
1/8/2021	12/31/2021	Evaluation of Malaria Specimen Bank - Phase V	To analyze blood samples to determine what species of human malaria parasites are present in the specimens as part of an evaluation of a global malaria specimen bank.				\$263,846.82	
				World Health Organization*	\$263,846.82			
10/17/2018	12/31/2020	Evaluation of Malaria Vaccine Implementation Pilot	To evaluate the feasibility, impact and safety of RTS,S/AS01E malaria vaccine implementation through routine health systems in moderate to high malaria transmission settings in sub-Saharan Africa.				\$2,937,492.00	
				World Health Organization				
3/30/2020	12/31/2021	Evaluation of Malaria Vaccine Implementation Phase II	To evaluate the feasibility, impact and safety of RTS,S/AS01E malaria vaccine implementation through routine health systems in moderate to high malaria transmission settings in sub-Saharan Africa.				\$2,785,869.00	
				World Health Organization				
3/1/2018	2/28/2022	Evaluation of Novel Polymer-Based Implant	To evaluate a polymer-based in-situ forming implant and its ability to provide long-lasting protection against HIV infection.				\$271,160.00	
				University of North Carolina at Chapel Hill				
11/3/2018	12/31/2022	Evaluation of Pneumococcal Conjugate Vaccine Schedule Change	To evaluate the impact of a pneumococcal conjugate vaccine schedule change in Mozambique on vaccine-type pneumococcal carriage and invasive pneumococcal disease; and serotype 1 colonization among patients with suspected pneumonia and serotype 1 disease among children and adults.				\$2,612,566.00	
				Bill & Melinda Gates Foundation				

						CDC Fiscal Year 2021		
Start Date	End Date	Program Name	Program Description	Funding Partner (* Indicates a funding partner in CDC fiscal year)	Committed Award	Cash	Cumulative Funding (All Years)	
4/7/2016	12/31/2021	Evaluation of Rotavirus Vaccine in Vietnam	To establish rotavirus surveillance, implement rotavirus vaccination introduction and evaluate impact and effectiveness of rotavirus vaccination in targeted districts in Vietnam.	Bill & Melinda Gates Foundation			\$1,194,965.00	
4/1/2013	9/24/2021	Evaluation of UPS's Road Code Teen Driving Program	To conduct a program analysis and evaluation of United Parcel Service's (UPS) Road Code, an interactive program that brings UPS's safe driving techniques and methods to teenage drivers. CDC will conduct an analysis of the UPS Road Code curriculum, provide recommendations and resources based on the most recent and best available science and provide in-depth consultation on and assistance with the evaluation of the UPS Road Code program.	The UPS Foundation, Inc.			\$403,565.00	
9/1/2021	7/31/2022	Expanding Capacity to Address the Drug Overdose Epidemic	To build the capacity of communities to implement overdose prevention activities through staffing support to jurisdictions.	Centers for Disease Control and Prevention*	\$20,429,480.00		\$20,429,480.00	
11/1/2014	9/30/2021	Expanding the Immunization Data System in Nigeria	To implement a system which moves routine immunization data to the Nigerian government's Health Management Information Systems and expand the availability and use of high-quality data for strategic planning and program implementation in Nigeria.	Bill & Melinda Gates Foundation			\$14,941,897.00	
10/21/2016	8/31/2021	Feasibility of HPV Vaccine Evaluation	To explore the feasibility of human papilloma virus vaccine impact in a low-resource setting.	Bill & Melinda Gates Foundation			\$466,385.00	
11/1/2008	9/30/2022	Field Epidemiology Training Program - Saudi Arabia - Phase II	To evaluate Saudi Arabia's infectious disease surveillance system, help train local and regional disease detectives and improve the country's capacity to monitor for and respond to infectious disease outbreaks.	Kingdom of Saudi Arabia Ministry of Health			\$3,700,252.13	
8/30/2018	8/30/2021	Firefighter Cancer Cohort Expansion	To examine the exposure and health effects in arson investigators, trainers, volunteers and wildland-urban interface firefighters.	University of Miami*	\$119,081.00		\$405,320.00	
6/1/2012	12/31/2023	Folate Status in the U.K. Population	To determine folate status across the U.K. in order to establish a population baseline should mandatory folic acid fortification proceed.	MRC Human Nutrition Research			\$692,527.97	
4/1/2019	10/15/2020	Food Fortification Initiative Global Fortification Data Exchange, Version 3	To promote the use of foods fortified with iron, zinc and folic acid and other B vitamins around the world by encouraging the production and marketing of fortified wheat flour, maize flour and rice.	Iodine Global Network			\$243,697.34	
9/14/2018	3/13/2022	Gas and Particulate Exposure on Personal Protective Equipment	To better understand how gas and particulate exposure impacts the personal protective equipment of firefighters.	University of Illinois at Urbana-Champaign*	\$39,823.00		\$302,441.00	
3/8/2019	3/31/2021	GAVI Alliance Partner Engagement Framework (2019)	To conduct vaccine research and surveillance with several countries to determine the burden of vaccine preventable diseases, including meningitis, rotavirus, pneumonia, intussusception and rubella. The partnership will enhance the quality of disease and coverage data and assess vaccine impact.	GAVI Alliance			\$5,283,336.00	
4/26/2020	12/31/2021	GAVI Alliance Partner Engagement Framework (2020)	To conduct vaccine research and surveillance with several countries to determine the burden of vaccine preventable diseases. The partnership will enhance the quality of disease and coverage data and assess vaccine impact.	GAVI Alliance			\$5,748,734.00	
6/2/2021	6/30/2022	GAVI Alliance Partner Engagement Framework (2021)	To conduct vaccine research and surveillance with several countries to determine the burden of vaccine preventable diseases. The partnership will enhance the quality of disease and coverage data and assess vaccine impact.	GAVI Alliance*	\$3,159,617.43		\$3,159,617.43	
1/1/2016	8/31/2021	GAVI Targeted Assessments	To conduct targeted assessments related to pneumococcal meningitis in Burkina Faso and oral rotavirus vaccine in Mozambique.	GAVI Alliance			\$4,873,565.00	
12/20/2017	12/19/2022	Global Cardiovascular Health Partnership	To strengthen the global evidence base of the management of cardiovascular diseases; improve point-of-care testing; and monitor trends within the global noncommunicable disease burden.	Amgen Inc.*	\$600,000.00		\$2,400,000.00	
8/21/2019	On-going	Global Pediatric Norovirus Surveillance Network	To develop a Global Pediatric Norovirus Laboratory Surveillance Network to monitor norovirus strains and provide data critical for decision-making related to norovirus vaccination.	Takeda Vaccines, Inc.			\$310,000.00	
2/1/2020	11/30/2023	Global Pneumococcal Sequencing 2.0	To generate knowledge on the globally spreading Streptococcus pneumoniae (pneumococcal) lineages that may drive serotype replacements in pneumococcal pneumonia and changes in the prevalence of antibiotic resistance in the post-PCV13 era.	Vaxart, Inc.			\$644,163.00	
2/1/2018	12/31/2021	Global Road Safety Clearinghouse and Evaluation Lab	To launch an information clearinghouse and evaluation lab for global road safety partners and champions interested in evaluating their programs and/or identifying evidence-based practices for implementation in the field.	Wellcome Sanger Institute			\$97,960.05	
6/15/2016	12/31/2022	Global Rotavirus and IBVPD Reference Laboratory	To help CDC serve as a global reference laboratory for rotavirus and the invasive bacterial vaccine preventable diseases (IBVPD) laboratory networks, which provide support to the WHO-coordinated global rotavirus and the global IBVPD surveillance networks.	FIA Foundation			\$471,846.00	
3/15/2021	3/14/2022	Health Equity Systems Coordination	To translate our health equity strategy into meaningful organization change that will ensure sustainability of the equity principles in all aspects of our work.	World Health Organization			\$150,000.00	
9/30/2021	9/29/2022	Health Security & Health Threats Response in Haiti	To support Haiti's COVID-19 vaccine distribution efforts as well as water and sanitation improvements in response to the 2021 earthquake.	Wend Collective*	\$150,000.00		\$5,528,169.00	
1/1/2019	On-going	Healthy Homes, Healthy People on Navajo Nation	To reduce the incidence of the rodent-borne disease hantavirus among residents of the Navajo Nation by preventing exposure to the virus through empowering residents to repair and reinforce their homes against rodents, notably deer mice, the vector species for hantavirus.	Centers for Disease Control and Prevention*	\$5,528,169.00		\$100,000.00	

Start Date	End Date	Program Name	Program Description	Funding Partner (* Indicates a funding partner in CDC fiscal year)	CDC Fiscal Year 2021		Cumulative Funding (All Years)
					Committed Award	Cash	
9/1/2021	7/31/2022	HEAR HER American Indian/Alaska Native Campaign Development & Implementation	To build capacity and support the development, implementation and evaluation of materials for the "Hear Her" campaign.	Reckitt			\$350,000.00
3/31/2020	9/30/2021	Hear Her Maternal Health Campaign	To increase awareness of serious pregnancy-related complications and their warning signs to help reduce the number of preventable maternal deaths in the United States.	Centers for Disease Control and Prevention*	\$350,000.00		\$2,022,990.00
9/1/2018	8/31/2022	History, Immunity and Transmission Patterns of Sapovirus	To conduct a birth cohort study in Nicaragua to better understand the epidemiology, immunity and transmission patterns of sapovirus using next-generation sequencing strategies.	Merck Sharp & Dohme Corp.*	\$250,000.00		\$232,032.00
12/1/2020	11/30/2021	HIV Prevention Trials Network	To evaluate the efficacy of injectable pre-exposure prophylaxis (PrEP) for HIV-uninfected cisgender men and transgender women who have sex with men.	University of North Carolina at Chapel Hill*	\$77,344.00		\$1,608,554.00
10/1/2017	2/28/2021	HIV Trials Network	To facilitate the formation of an HIV Trials Network to advance research, therapy and prevention.	FHI 360*	\$1,608,554.00		\$3,060,497.00
12/1/2009	On-going	Hormone Laboratory Collaborations	To help CDC provide reference and quality control materials for laboratory collaboration, including collaborations for the Hormone Measurement Standardization program.	Emory University*	\$89,433.00		\$6,719,646.07

8/1/2016	On-going	Hormone Laboratory Collaborations 2.0	To help CDC provide reference and quality control materials for laboratory collaboration, including collaborations for the Hormone Measurement Standardization program.				\$435,368.30
				Laboratory Corporation of America Holdings			
				National Institutes of Health			
9/1/2018	8/31/2021	Hurricane Impact Gathering	To provide a final award review on impact for the Hurricane 2017 Jurisdictional Disaster Reconstitution Management Funding Award for all CDC CoAg Crisis-funding partners supporting Puerto Rico and U.S. Virgin Islands (USVI). Additionally, the CDC Foundation will hire two performance improvement managers (one in USVI and one in Puerto Rico) to build capacity within the health departments on grants management. The CDC Foundation will also support the development of one grants management training.				\$545,000.00
				Centers for Disease Control and Prevention			
9/1/2018	6/30/2021	Hurricane Jurisdictional Disaster Reconstitution Management	To support continued hurricane recovery in the U.S. Virgin Islands (USVI) through the procurement of essential equipment and training of health department staff.				\$705,971.00
				Centers for Disease Control and Prevention			
9/1/2018	6/30/2021	Hurricane Jurisdictional Recovery Management	To support the U.S. Virgin Islands Department of Health in hurricane response and recovery activities through enhanced personnel.				\$356,673.00
				Centers for Disease Control and Prevention			
9/1/2019	7/31/2021	Identifying Messaging to Support Hypertension Control in the Workplace	To identify high-impact language, concepts and narratives that will inform how public health can communicate hypertension control messaging to private sector employers, their workforce and related beneficiaries.				\$200,000.00
				Centers for Disease Control and Prevention			
5/26/2019	8/31/2022	Immunologic Endpoints Against Young Infant Group B Streptococcal Disease	To provide a case-control study comparing naturally occurring group B strep antibodies in young infants with invasive disease versus controls that will establish antibody thresholds associated with protection and inform decisions about future maternal Group B Streptococcus vaccine licensure.				\$4,210,400.00
				Bill & Melinda Gates Foundation			
				St. George's, University of London			
11/28/2016	12/31/2022	Impact Assessment of Rotavirus Vaccine in Pakistan	To provide evidence about the public health impact and benefits on child health after the introduction of rotavirus vaccine into the Pakistan National Immunization Program system.				\$2,021,967.00
				Bill & Melinda Gates Foundation			
9/11/2019	6/30/2023	Improved Tracking of Healthcare-Associated Infections	To improve tracking of healthcare-associated infections (HAIs) across community and healthcare settings by developing an innovative process and methods for linking and analyzing data that spans inpatient and community exposures and healthcare utilization in order to identify opportunities for prevention and early recognition.				\$2,874,284.00
				Pfizer Inc.			
3/15/2020	8/30/2021	Improving Firefighter Protective Equipment	To improve firefighter safety and health by reducing exposure to harmful contaminants in personal protective equipment (PPE).				\$335,356.00
				The Fire Protection Research Foundation			
8/1/2020	7/31/2022	Improving Linkages to Address OUD among Pregnant and Postpartum Women	To better address opioid use disorder among pregnant and postpartum women by providing support and technical assistance to maternal mortality review committees and perinatal quality collaboratives; and building upon efforts to advance the surveillance of both fatal and nonfatal opioid use, while strengthening state coordination to advance policy and program, including quality improvement, to help women and infants impacted by opioid use disorder.				\$1,050,000.00
				Centers for Disease Control and Prevention			
9/1/2021	7/31/2022	Improving Maternal Infant Health COVID-19 Surveillance and Clinical Care	To support maternal-infant health COVID-19 surveillance as well as to integrate COVID-19 vaccination and other efforts to reduce severe illness from COVID-19 with the CDC strategic areas of focus.				\$1,750,000.00
				Centers for Disease Control and Prevention*	\$1,750,000.00		
8/1/2020	7/31/2022	Improving Mental, Behavioral and Academic Supports to Students and Families	To improve mental, behavioral and academic support to students, families and teachers by sharing resources and information about COVID-19.				\$500,000.00
				Centers for Disease Control and Prevention*	\$500,000.00		
12/10/2018	11/30/2021	Improving Nutrition for Adolescents in Bangladesh	To demonstrate the effectiveness and scalability of using the secondary school platform to deliver iron and folic acid to improve the nutrition and health status of adolescents in selected districts of Bangladesh.				\$409,354.12
				Nutrition International			
8/1/2019	7/31/2022	Improving STD Prevention and Care Through Partnerships (Years 2-4)	To conduct research and analysis that will provide public health professionals, policy makers and legislators with an evidence-base to address gaps in care and service for Medicaid patients seeking STD care.				\$1,375,000.00
				Centers for Disease Control and Prevention*	\$575,000.00		
1/1/2020	7/31/2023	Improving Testing Protocol for Inhibitors in Hemophilia	To determine whether inhibitor testing can be more efficiently, cost-effectively and accurately executed.				\$372,441.20

					CDC Fiscal Year 2021		
Start Date	End Date	Program Name	Program Description	Funding Partner (* Indicates a funding partner in CDC fiscal year)	Committed Award	Cash	Cumulative Funding (All Years)
				Genentech, Inc.			
4/1/2018	2/28/2022	Improving Understanding of Drowning in Africa	To improve understanding of the types and circumstances of drowning in Sub-Saharan Africa in order to develop, inform and implement drowning prevention programs to mitigate drowning risks and save lives.				\$2,301,000.00
				Bloomberg Philanthropies*	\$627,000.00		
9/20/2019	8/1/2023	Indian Rotavirus Vaccines in Early Adopter Countries	To show the health impact of low-cost, Indian-made rotavirus vaccines in high burden, low-income countries of Africa and Asia.				\$1,673,274.00
				Bill & Melinda Gates Foundation			
7/6/2020	12/31/2023	Innovations in Antenatal and Postnatal Care in Kenya	To strengthen pregnancy surveillance and service delivery as part of the antenatal and postnatal care research collective at the Child Health and Mortality Prevention Surveillance site in Kenya.				\$874,113.00
				Bill & Melinda Gates Foundation			
11/15/2019	10/31/2022	Integrated Serosurveillance Center and Serologic Surveillance in Nigeria	To scale capacity for integrated serosurveillance in Africa and to conduct integrated serologic surveillance using stored samples from Nigeria's HIV Impact Survey.				\$2,199,500.00
				Bill & Melinda Gates Foundation			
11/5/2019	11/30/2021	Integrating Genomic Data Surveillance in Senegal	To scale and integrate genomic epidemiology approaches into real world malaria control and elimination surveillance and decision-making strategy in Senegal, a malaria endemic country.				\$177,596.00
				Harvard University, T.H. Chan School of Public Health			
6/1/2018	4/30/2022	Laboratory Surveillance for Pneumococcal Meningitis in India	To strengthen laboratory surveillance for pneumococcal meningitis and serotyping in India to understand the impact of a pneumococcal conjugate vaccine rollout.				\$1,031,740.00
				Bill & Melinda Gates Foundation			
11/1/2019	10/31/2021	Labs for Life 2020	To support an annual planning meeting and provide technical assistance in India regarding infection prevention and control data sharing and best practices.				\$103,835.00
				BD			
8/16/2020	8/15/2022	Lehigh Valley Public Health Informatics Fellowship	To embed a CDC Public Health Informatics Fellow within the Lehigh Valley healthcare system to solve complex public health informatics challenges by linking informatics, population health science and data on social determinants of health.				\$266,978.00
				The Dorothy Rider Pool Health Care Trust			
9/1/2021	7/31/2022	Leveraging CILs to Increase Vaccines for People with Disabilities	To support Centers for Independent Living (CILs) in increasing access for COVID-19 vaccination.				\$7,220,000.00
				Centers for Disease Control and Prevention*	\$7,220,000.00		
6/30/2020	9/30/2021	Leveraging WHO Rotavirus Surveillance Networks for Diarrheal Pathogens	To leverage World Health Organization (WHO) global rotavirus surveillance by using novel technology to achieve a better understanding of the role of enteric pathogens other than rotavirus in childhood diarrhea requiring hospitalization.				\$197,012.08
				World Health Organization			
7/23/2021	12/31/2021	Leveraging WHO Rotavirus Surveillance Networks for Diarrheal Pathogens (CE)	To leverage World Health Organization (WHO) global rotavirus surveillance by using novel technology to achieve a better understanding of the role of enteric pathogens other than rotavirus in childhood diarrhea requiring hospitalization.				\$50,000.00
				World Health Organization*	\$50,000.00		
8/1/2015	6/30/2022	Making Dialysis Safer for Patients	To reduce potentially deadly bloodstream infections in hemodialysis outpatients by targeting patients, healthcare providers and caregivers using evidence-based communications strategies with prevention messages.				\$456,000.00
				Amgen Inc.			
11/1/2014	3/31/2021	Malaria Zero	To eliminate malaria in Hispaniola by developing, adopting and implementing an evidence-based strategy and operational plan, securing resources and improving and refining malaria surveillance systems.				\$31,373,418.00
				Bill & Melinda Gates Foundation			
				United Nations Foundation			
				Various Individual Contributors			
10/1/2019	6/30/2022	Maternal and Reproductive Health in Tanzania	To focus on improving family planning and maternal health in Tanzania's Kigoma region in the third phase of this project involving CDC, the World Lung Foundation and Engender Health.				\$165,000.00
				Bloomberg Philanthropies*	\$165,000.00		
3/5/2020	2/28/2025	Mechanisms of Norovirus Protective Immunity	To screen a subset of human and mouse monoclonal antibodies for their ability to neutralize GI.1, a time ordered panel of GI.4, and GI.3 noroviruses using a novel human intestinal enteroid cell culture system.				\$177,840.00
				University of North Carolina at Chapel Hill*	\$88,920.00		
10/1/2013	12/31/2023	MenAfriNet Meningitis Surveillance in Africa (MenAfrNet II)	To improve scientific understanding of meningitis to guide research on new vaccines and strategies, and to optimize impact of existing vaccines in the African meningitis belt.				\$4,999,999.00
				Bill & Melinda Gates Foundation			
2/18/2020	9/30/2023	Microneedle Patch for Measles and Rubella Vaccination	To support the continuing development of a dissolving microneedle patch for measles and rubella vaccination. This patch is designed to be easily administered as a single dose by minimally trained personnel, to generate no sharps waste, and to improve stability outside of the cold chain, enabling house-to-house campaigns and improving routine and campaign vaccination coverage.				\$370,035.00
				Bill & Melinda Gates Foundation			
12/1/2019	12/31/2023	Million Hearts 2020	To provide a health communication campaign related to heart disease education and prevention in the United States with the goal of informing Americans ages 35-64 on the risk factors of heart disease and stroke and inspiring action.				\$11,300,000.00
				Amgen Inc.			
				Bayer Corporation			
11/1/2018	3/31/2021	Monitoring and Evaluation of TCV in Zimbabwe	To monitor and evaluate the typhoid conjugate vaccine campaign in Zimbabwe.				\$515,000.00
				GAVI Alliance			
7/1/2019	6/30/2022	Monitoring E-Cigarette Use Among Youth	To implement a three-pillar strategy of pre- and post-measurements to complement existing surveillance activities and assess e-cigarette policy impact. The proposed pillars are: 1) adding more nuanced, key indicators to state-based youth surveillance systems; 2) accessing real-time data on retail sales of e-cigarettes; and 3) leveraging longitudinal web-based surveys.				\$10,500,000.00
				Bloomberg Philanthropies*	\$3,277,000.00
