

**CDC Foundation Active Programs**  
October 1, 2023 - September 30, 2024

This document provides a list of CDC-led CDC Foundation programs that were active between October 1, 2023 and September 30, 2024. Each program listing includes program name, description, funding partner(s), dates for the programs and amounts of the funding provided during the fiscal year. Where applicable, funding partners from previous years are listed. Note that the dates used for active projects match CDC's fiscal year and not the CDC Foundation's fiscal year, which runs July 1 through June 30.

(The CDC Foundation has updated this report to reflect the report's purpose of providing transparent data on external funders contributing to CDC-led and/or CDC-initiated programs. For a listing of the CDC Foundation's donors and gifts partner information, please see the CDC Foundation's Report to Congress linked from our website.)

Start Date	End Date	Program Name	Program Description	Funding Partner (* Indicates a funding partner in CDC fiscal year)	CDC Fiscal Year 2024		Cumulative Funding (All Years)
					Committed Award	Cash	
9/20/2024		<b>A Day at CDC for Veterinary Students</b>	To enable veterinary students from across the United States, Canada, and the Caribbean to learn more about opportunities in public health for veterinary professionals.				
9/1/2015	Ongoing	<b>AIDS and Kaposi's Sarcoma in Uganda</b>	To perform Human Herpesvirus-8 (HHV-8) diagnostics on specimens from a University of California San Francisco study on antiretroviral therapy for patients with AIDS and Kaposi's sarcoma in Uganda.				\$63,000.00
				University of California, San Francisco			
10/1/2020	9/30/2026	<b>Analysis of Immunogenicity and Shedding of New Oral Poliovirus Vaccines</b>	To provide laboratory support for the analysis of immunogenicity and shedding of new oral Poliovirus vaccines in human clinical trials and related issues for polio endgame.				\$8,469,798.00
				Bill & Melinda Gates Foundation			
11/12/2021	11/30/2023	<b>Antimalarial Resistance Monitoring in Africa</b>	To pilot the training of scientists at the first PARMA (President's Malaria Initiative-supported Antimalarial Resistance Monitoring in Africa) site in Africa in Senegal.				\$1,499,999.00
				Bill & Melinda Gates Foundation			
2/16/2024	12/31/2024	<b>Atlanta Hypertension Initiative 2024</b>	To engage individuals, health care providers and community organizations to support and connect individuals with services that support heart-healthy behaviors, catalyzing health care system quality improvement and engaging individuals in adopting small steps to improve their cardiovascular health.				\$30,000.00
				AstraZeneca PLC*	\$30,000.00		
11/1/2023	10/15/2025	<b>Emerging Infections Resources Program</b>	To maintain, produce, authenticate and distribute arthropod vectors and associated reagents for the Emerging Infections Research Resources Program.				\$556,982.00
				American Type Culture Collection*	\$556,982.00		
9/20/2019	3/31/2026	<b>Biomarker Discovery through Serum Epitope Repertoire Analysis (SERA)</b>	To optimize interventions and tools to enable the elimination and eradication of prioritized Neglected Tropical Diseases (NTDs) as identified by the London Declaration.				\$4,792,434.00
				Bill & Melinda Gates Foundation			
7/3/2019	6/30/2024	<b>Burkina Faso Micronutrient Survey</b>	To design and implement a high-quality comprehensive nationally representative micro-nutrient status household survey in Burkina Faso.				\$2,000,000.00
				Bill & Melinda Gates Foundation			
10/20/2021	3/31/2025	<b>Characterization of Non-Rotavirus Viral Diarrheal Pathogens</b>	To support the characterization of non-rotavirus viral diarrheal pathogens to inform the body of work that contributes to optimizing the efficacy of rotavirus vaccines.				\$1,211,158.00
				Bill & Melinda Gates Foundation*	\$28,000.00		
6/1/2020	1/31/2025	<b>Controlling Mosquito Vectors of Malaria</b>	To develop data that will contribute to an assessment of whether transgenic mosquitoes could be effectively and safely deployed to control natural populations of malaria vectors.				\$3,295,625.16
				Imperial College London*	\$1,216,207.08		
7/21/2023	8/31/2025	<b>Cryopreservation and Artificial Insemination for Anopheles Mosquitoes</b>	To continue project in cryopreservation and suppression of female development in mosquitoes to assist research for malaria control.				\$900,000.00
				Good Ventures Foundation			

Start Date	End Date	Program Name	Program Description	Funding Partner (* Indicates a funding partner in CDC fiscal year)	Committed Award	Cash	Cumulative Funding (All Years)
3/8/2023	1/31/2025	<b>Data for Change II</b>	To improve educational outcomes for refugee, internally displaced or host community girls and adolescent girls in humanitarian contexts, post-conflict, and host countries through technical assistance provided for the implementation of a humanitarian Violence Against Children and Youth Survey in refugee settlements in Uganda, with special attention to sexual and gender-based violence and barriers to girls' education.				\$83,244.00
				Together for Girls, Inc.			
3/1/2015	3/31/2025	<b>Data for Health</b>	To assist 25 low- and middle-income countries across Latin America, Asia and Africa in strengthening their public health data systems and data use for critical policy-making decisions.				\$64,586,222.15
				Bloomberg Philanthropies			
8/1/2024	6/30/2025	<b>Data for Health Supplemental Project</b>	Collection of birth and death data through surveys in focus countries to help improve data use by government agencies and public health professionals.				\$585,000.00
				The Bloomberg Family Foundation*	\$585,000.00		
4/1/2023	3/31/2025	<b>Data for Health, Phase 5</b>	Collection of birth and death data through surveys in focus countries to help improve data use by government agencies and public health professionals.				\$16,700,000.00
				Bloomberg Philanthropies			
6/28/2024	Ongoing	<b>Development and Dissemination of Findings &amp; Methodology on Inclusive Education</b>	To develop questions on out-of-school children as part of the Inclusive Education Module for the UNICEF Multiple Indicators Cluster Surveys and share the methodological insights from the study at conferences and workshops.				\$23,680.80
				The Center for Inclusive Policy*	\$23,680.80		
8/13/2024	2/28/2026	<b>Development of a Microarray Patch for Delivery of Long-Acting Antivirals</b>	To provide project management services to include management of design and performance by CDC of an animal research study involving application of microarray patches (MAPs) containing antiretrovirals for HIV treatment to rhesus macaques.				\$386,823.00
				PATH*	\$386,823.00		
6/13/2019	Ongoing	<b>Digital Bridge Information Exchange between Healthcare Sector and Public Health</b>	To use a public-private partnership model that includes significant collaboration among three major stakeholder communities (healthcare providers, healthcare information technology vendors and public health) to promote crucial health data interoperability.				\$4,788,828.00
				Sergey Brin Family Foundation			
9/1/2019	12/31/2024	<b>Eliminating Lymphatic Filariasis in American Samoa</b>	To stop the spread of lymphatic filariasis and alleviate the suffering of those impacted by providing technical support to the department of health with the goal of eliminating lymphatic filariasis in American Samoa by 2025.				\$1,000,000.00
				Margaret A. Cargill Philanthropies			
11/11/2019	12/31/2023	<b>EmPOWERED Health Program</b>	To improve cancer outcomes by educating and empowering people to become proactive participants in their own health and improve patient-physician conversations and shared decision making.				\$2,395,684.00
				Amgen Inc.			
3/1/2020	4/30/2024	<b>Evaluating and Improving WASH Efforts in Niger</b>	To increase access to effective water, sanitation and hygiene (WASH) infrastructure in healthcare facilities in Niger.				\$121,562.00
				WorldVision Inc.			
9/16/2022	9/30/2025	<b>Evaluating HPV Vaccine Induced Antibodies in Botswana</b>	To evaluate the impact of HPV vaccines and the persistence of HPV antibodies among HPV-vaccinated women living with HIV in Botswana.				\$513,703.00
				Bill & Melinda Gates Foundation			
				Copan Diagnostics, Inc.			
2/22/2021	5/31/2027	<b>Evaluating the Impact of the Pneumococcal Conjugate Vaccine Introduction in Indonesia</b>	To conduct an evaluation before and two years after the introduction of the Pneumococcal conjugate vaccines (PCV) to study the direct and indirect impact of PCV introduction on vaccine-type pneumococcal carriage among healthy Indonesian children under five years of age.				\$2,850,019.00
				Bill & Melinda Gates Foundation			
9/30/2021	9/30/2025	<b>Evaluating Tuberculosis Preventive Treatment in People Living with HIV</b>	To determine the impact of Tuberculosis preventative treatment among populations living with HIV.				\$4,766,680.00
				Bill & Melinda Gates Foundation			

Start Date	End Date	Program Name	Program Description	Funding Partner (* Indicates a funding partner in CDC fiscal year)	Committed Award	Cash	Cumulative Funding (All Years)
2/1/2019	1/31/2024	<b>Evaluation of Malaria Specimen Bank - Phase III-VI</b>	The objective of this program is to contribute to the evaluation of a global malaria specimen bank by supporting CDC to serve as the repository site of the global specimen bank of two major species of human malaria parasites and conducting performance evaluations on malaria rapid diagnostic tests submitted to the World Health Organization (WHO) for assessment under the WHO Prequalification of In Vitro Diagnostics and the Emergency Use Listing. This comprehensive approach ensures both the thorough understanding of malaria parasite diversity and the operational effectiveness of diagnostic tools aimed at combatting malaria.				\$1,623,746.84
				World Health Organization			
3/28/2024	1/20/2025	<b>Evaluation of Malaria Specimen Bank Phase VII</b>	The objective of this program is to contribute to the evaluation of a global malaria specimen bank by supporting CDC to serve as the repository site of the global specimen bank of two major species of human malaria parasites and conducting performance evaluations on malaria rapid diagnostic tests submitted to the World Health Organization (WHO) for assessment under the WHO Prequalification of In Vitro Diagnostics and the Emergency Use Listing. This comprehensive approach ensures both the thorough understanding of malaria parasite diversity and the operational effectiveness of diagnostic tools aimed at combatting malaria.				\$286,655.00
				World Health Organization*	\$286,655.00		
3/30/2020	12/31/2024	<b>Evaluation of Malaria Vaccine Implementation</b>	To strengthen the evidence on the RTS,S/AS01 malaria vaccine: assessment of safety and effectiveness using case-control studies.				\$9,895,243.00
				World Health Organization*	\$361,345.00		
11/3/2018	6/30/2025	<b>Evaluation of Pneumococcal Conjugate Vaccine Schedule Change</b>	To evaluate the impact of a pneumococcal conjugate vaccine schedule change in Mozambique on vaccine-type pneumococcal carriage and invasive pneumococcal disease; and serotype 1 colonization among patients with suspected pneumonia and serotype 1 disease among children and adults.				\$3,712,566.00
				Bill & Melinda Gates Foundation			
5/16/2022	9/6/2024	<b>Expanding Firefighting Personal Protective Equipment Cleaning Validation Procedures</b>	To lessen firefighter exposure to harmful contaminants from uncleaned or improperly cleaned personal protective equipment (PPE) that improves firefighter safety and health.				\$270,841.00
				The Fire Protection Research Foundation			
10/1/2023	12/31/2025	<b>Evaluation Support of the Hear Her Campaign</b>	To conduct an evaluation of the Hear Her campaign to further understand the impact of the campaign since launch.				\$499,999.73
				Merck Sharp & Dohme Corp.			
4/3/2022	4/2/2025	<b>Field Epidemiology Training Program (FETP) in Qatar</b>	To assist the Ministry of Public Health in establishing a Field Epidemiology Training Program (FETP) in Qatar focused on building its public health workforce capacity.				\$2,311,663.00
				State of Qatar Ministry of Public Health			
11/1/2008	9/30/2025	<b>Field Epidemiology Training Program (FETP) in Saudi Arabia - Phase II</b>	To evaluate Saudi Arabia's infectious disease surveillance system, help train local and regional disease detectives and improve the country's capacity to monitor for and respond to infectious disease outbreaks.				\$4,880,191.08
				Kingdom of Saudi Arabia Ministry of Health			
8/28/2023	8/31/2025	<b>Framework to Prioritize Global Tuberculosis (TB) Data</b>	To develop a framework for countries and national tuberculosis (TB) control programs to prioritize the collection, analysis, and use of supplementary TB data. Such TB data can then be used to develop better National Strategic Plans for TB towards ending TB.				\$800,250.00
				Bill & Melinda Gates Foundation			
7/1/2022	12/31/2025	<b>GAVI Alliance Partner Engagement Framework (2022-2025) - Foundational Support</b>	To coordinate the programmatic implementation of Gavi's 2022-2025 Partners' Engagement Framework, leading to increased equitable use of vaccines in lower-income countries.				\$1,034,000.00
				Gavi Alliance			
10/1/2022	12/31/2025	<b>GAVI Alliance Partner Engagement Framework (2022-2025) - Strategic Focus Area</b>	This funding will help implement the CDC Foundation programs and activities supporting the Strategic Focus Area (SFA) portion of the 2022-2025 Partners Engagement Framework.				\$3,493,848.80

Start Date	End Date	Program Name	Program Description	Funding Partner (* Indicates a funding partner in CDC fiscal year)	Committed Award	Cash	Cumulative Funding (All Years)
				Gavi Alliance*	\$50,000.00		
10/1/2022	12/31/2025	<b>GAVI Alliance Partner Engagement Framework (2022-2025) - TCA</b>	To help implement the CDC Foundation programs and activities supporting the Targeted Country Assistance portion of the 2022-2025 Partners' Engagement Framework.				\$3,114,755.67
				Gavi Alliance*	\$1,708,439.99		
6/11/2024	5/1/2027	<b>Global Guinea Worm Eradication Program Laboratory Support</b>	To support CDC with diagnostic development and processing for the global Guinea Worm Eradication Program (GWEP). This project will provide CDC with the laboratory support needed to diagnose possible Guinea worm (GW) specimens submitted by endemic and non-endemic countries and to validate and/or develop novel Guinea worm diagnostic tests.				\$684,597.00
				The Carter Center, Inc.*	\$684,597.00		
3/15/2024	3/14/2025	<b>Global Pediatric Diarrheal Surveillance Network</b>	To support typing of non-rotavirus enteric virus samples from World Health Organization's (WHO) global pediatric diarrheal surveillance network.				\$104,299.00
				HilleVax, Inc*	\$104,299.00		
8/21/2019	Ongoing	<b>Global Pediatric Norovirus Surveillance Network</b>	To develop and expand a Global Pediatric Norovirus Laboratory Surveillance Network to monitor norovirus strains and provide data critical for decision-making related to norovirus vaccination.				\$339,000.00
				Individual Contributor			
				Takeda Vaccines, Inc.			
				Vaxart, Inc.			
12/5/2023	10/5/2025	<b>Global Pediatric Norovirus Surveillance Network Part 2</b>	To develop and expand a Global Pediatric Norovirus Laboratory Surveillance Network to monitor norovirus strains and provide data critical for decision-making related to norovirus vaccination.				\$454,475.00
				HilleVax, Inc.*	\$434,475.00		
				Vaxart, Inc.*	\$20,000.00		
2/1/2020	11/30/2025	<b>Global Pneumococcal Sequencing 2.0</b>	To generate knowledge on the globally spreading Streptococcus pneumoniae (pneumococcal) lineages that may drive serotype replacements in pneumococcal pneumonia and changes in the prevalence of antibiotic resistance in the post-PCV13 era.				\$644,163.00
				Wellcome Sanger Institute			
1/1/2019	Ongoing	<b>Healthy Homes, Healthy People on Navajo Nation</b>	To reduce the incidence of the rodent-borne disease hantavirus among residents of the Navajo Nation by preventing exposure to the virus through empowering residents to repair and reinforce their homes against rodents, notably deer mice, the vector species for hantavirus.				\$100,000.00
				Reckitt			
7/1/2022	4/30/2024	<b>HEAR HER Expansion: American Indian/Alaska Native and Global Formative Work</b>	To expand the reach of Hear Her resources for healthcare professionals and American Indian and Alaska Native communities in the United States and to conduct exploratory formative work to determine the feasibility of a new segment of the campaign to reach a global audience.				\$626,662.50
				Individual Contributor			
				Merck Sharp & Dohme Corp.			
12/1/2020	11/30/2025	<b>HIV Prevention Trials Network</b>	To evaluate the efficacy of injectable pre-exposure prophylaxis (PrEP) in HIV-uninfected populations.				\$5,574,850.00
				FHI 360*	\$552,570.00		
8/1/2016	Ongoing	<b>Hormone Laboratory Collaborations 2.0</b>	To help CDC provide reference and quality control materials for laboratory collaboration, including collaborations for the Hormone Measurement Standardization program.				\$435,372.57
				National Institutes of Health			
12/1/2009	Ongoing	<b>Hormone Laboratory Collaborations</b>	To help CDC provide reference and quality control materials for laboratory collaboration, including collaborations for the Hormone Measurement Standardization program.				\$7,104,461.48
				Abbott Ireland			
				Abbott Laboratories			
				Abbott Standard Diagnostics, Inc.			
				Academic Hospital Paramaribo			
				Affimedix, Inc.			

Start Date	End Date	Program Name	Program Description	Funding Partner (* Indicates a funding partner in CDC fiscal year)	Committed Award	Cash	Cumulative Funding (All Years)
				American Association for Clinical Chemistry, Inc.			
				American University of Beirut			
				Ann & Robert H. Lurie Children's Hospital of Chicago

				Zhejiang Disigns Diagnostics			
				ZRT Laboratory, LLC			
10/1/2018	12/31/2025	<b>Immunologic Endpoints Against Young Infant Group B Streptococcal Disease</b>	To provide a case-control study comparing naturally occurring group B strep antibodies in young infants with invasive disease versus controls that will establish antibody thresholds associated with protection and inform decisions about future maternal Group B Streptococcus vaccine licensure.				\$5,030,468.00
				Bill & Melinda Gates Foundation			
				St. George's, University of London			
11/28/2016	12/31/2023	<b>Impact Assessment of Rotavirus Vaccine in Pakistan</b>	To provide evidence about the public health impact and benefits on child health after the introduction of rotavirus vaccine into the Pakistan National Immunization Program system.				\$2,021,967.00
				Bill & Melinda Gates Foundation			
10/14/2022	12/31/2024	<b>Impact of CDC-Tuberculosis Preventative Treatment Studies</b>	To enhance the informativeness and impact of the CDC-Tuberculosis Preventative Treatment studies by funding technical experts to partner in the production of updated protocols, updated statistical analysis plans, and a multi-country meta-analysis.				\$202,881.00
				Bill & Melinda Gates Foundation			
10/1/2021	9/30/2025	<b>Implementation and Monitoring of Overdose Prevention Programs and Policies</b>	To combat the drug overdose epidemic in the United States, timely, comprehensive and high-quality data are needed to detect emerging drug use trends, ensure a nimble approach and drive evidence-based prevention and response strategies. This project will 1) build capacity among medicolegal death investigation (MDI) offices to collect and share death data and 2) identify and develop a set of overdose prevention indicators for local and state jurisdictions to track and improve efforts.				\$5,145,000.00
				Bloomberg Philanthropies			
9/11/2019	6/30/2024	<b>Improved Tracking of Healthcare-Associated Infections</b>	To improve tracking of healthcare-associated infections (HAIs) across community and healthcare settings by developing an innovative process and methods for linking and analyzing data that spans inpatient and community exposures and healthcare utilization in order to identify opportunities for prevention and early recognition.				\$2,874,284.00
				Pfizer Inc.			
12/15/2021	7/31/2024	<b>Improving Engagement in Community Level Data Collection</b>	To improve the nation's access to community-relevant and nationally significant data.				\$2,027,005.80
				Robert Wood Johnson Foundation			
1/1/2024	8/31/2025	<b>Improving Respectful Care through Hear Her</b>	To supplement CDC's efforts to improve respectful care and promote birth and maternal health at a system-level by supporting Perinatal Quality Collaboratives to leverage Hear Her resources as part of quality improvement initiatives with hospitals throughout their state.				\$600,000.00
				Johnson & Johnson*	\$600,000.00		
1/1/2020	7/31/2024	<b>Improving Testing Protocol for Inhibitors in Hemophilia</b>	To determine whether inhibitor testing can be more efficiently, cost-effectively and accurately executed.				\$372,441.20

Start Date	End Date	Program Name	Program Description	Funding Partner (* Indicates a funding partner in CDC fiscal year)	Committed Award	Cash	Cumulative Funding (All Years)
				Genentech, Inc.			
4/1/2018	12/31/2023	<b>Improving Understanding of Drowning in Africa</b>	To improve understanding of the types and circumstances of drowning in Sub-Saharan Africa in order to develop, inform and implement drowning prevention programs to mitigate drowning risks and save lives.				\$2,420,000.00
				Bloomberg Philanthropies			
5/5/2022	12/31/2024	<b>Improving Water, Sanitation and Hygiene Services in Healthcare Facilities</b>	To expand CDC's strategic engagement in learning and evaluation of best practices for water, sanitation and hygiene (WASH) in healthcare facilities through implementation of targeted action research pilots in Uganda.				\$200,000.00
				Wallace Genetic Foundation			
9/20/2019	8/1/2025	<b>Indian Rotavirus Vaccines in Early Adopter Countries</b>	To show the health impact of low-cost, Indian-made rotavirus vaccines in high burden, low-income countries of Africa and Asia.				\$1,673,274.00
				Bill & Melinda Gates Foundation			
7/6/2020	12/31/2023	<b>Innovations in Antenatal and Postnatal Care in Kenya</b>	To strengthen pregnancy surveillance and service delivery as part of the antenatal and postnatal care research collective at the Child Health and Mortality Prevention Surveillance site in Kenya.				\$874,113.00
				Bill & Melinda Gates Foundation			
11/15/2019	10/31/2023	<b>Integrated Serosurveillance Center and Serologic Surveillance in Nigeria</b>	To scale capacity for integrated serosurveillance in Africa and to conduct integrated serologic surveillance using stored samples from Nigeria's HIV Impact Survey.				\$2,199,500.00
				Bill & Melinda Gates Foundation			
4/1/2023	3/31/2025	<b>Investigating Long-Acting PrEP Formulations</b>	To investigate long-acting PrEP formulations in macaque subjects.				\$73,751.00
				University of North Carolina at Chapel Hill*	\$67,220.00		
3/1/2023	2/28/2025	<b>Investigating the Biocompatibility of Biodegradable Subcutaneous Implant</b>	To investigate the biocompatibility, the drug release profile, and length of prophylactic efficacy of a biodegradable subcutaneous implant containing antiretroviral drug(s), developed by RTI.				\$195,656.00
				Research Triangle Institute (RTI International)			
6/27/2022	12/30/2024	<b>Investigating Safety and Efficacy of L9LS Monoclonal Antibodies in Western Kenya</b>	To investigate novel interventions such as monoclonal antibodies (MAbs) against malaria. An intervention that could prevent malaria in children for a full 12 months in settings of perennial malaria transmission, such as Kenya, holds potential to reduce malaria morbidity and mortality substantially in this population at risk for severe malaria and death.				\$4,946,789.00
				Bill & Melinda Gates Foundation			
6/1/2018	6/30/2025	<b>Laboratory Surveillance for Pneumococcal Meningitis in India</b>	To strengthen laboratory surveillance for pneumococcal meningitis and serotyping in India to understand the impact of a pneumococcal conjugate vaccine rollout.				\$1,031,740.00
				Bill & Melinda Gates Foundation			
6/30/2020	12/31/2023	<b>Leveraging WHO Rotavirus Surveillance Networks for Diarrheal Pathogens</b>	To leverage World Health Organization (WHO) global rotavirus surveillance by using novel technology to achieve a better understanding of the role of enteric pathogens other than rotavirus in childhood diarrhea requiring hospitalization.				\$679,867.71
				World Health Organization			
1/1/2024	12/31/2026	<b>Preparing Midwest Communities to Meet Health Challenges</b>	To build community resilience against weather events by supporting local disaster preparedness programs through community-based organizations in the Midwest, with a focus on rural areas.				\$1,500,000.00
				Margaret A. Cargill Philanthropies*	\$1,500,000.00		
3/1/2022	3/31/2025	<b>Maternal and Reproductive Health in Tanzania Sustainability Evaluation</b>	To evaluate the sustainability of activities supporting increased availability and access to obstetric care, family planning and comprehensive reproductive health care in Tanzania.				\$2,700,000.00
				Bloomberg Philanthropies			
2/20/2023	10/31/2025	<b>Measles-Rubella Microarray Patch Evaluation</b>	To evaluate the safety, tolerability and immunogenicity of a Measles-Rubella Microarray Patch (MR-MAP).				\$473,867.00
				PATH			

Start Date	End Date	Program Name	Program Description	Funding Partner (* Indicates a funding partner in CDC fiscal year)	Committed Award	Cash	Cumulative Funding (All Years)
3/5/2020	2/28/2025	<b>Mechanisms of Norovirus Protective Immunity</b>	To screen a subset of human and mouse monoclonal antibodies for their ability to neutralize GI.1, a time ordered panel of GII.4 and GII.3 noroviruses using a novel human intestinal enteroid cell culture system.				\$407,840.00
				University of North Carolina at Chapel Hill*	\$50,000.00		
10/1/2013	3/31/2024	<b>MenAfriNet Meningitis Surveillance in Africa (MenAfriNet II)</b>	To establish and maintain a regional meningitis surveillance network in sub-Saharan Africa, including to evaluate the effectiveness and impact of multivalent meningococcal conjugate vaccine introduced in sub-Saharan Africa Meningitis Belt countries and provide technical support to maintain cased based surveillance systems in Burkina Faso and Niger.				\$4,999,999.00
				Bill & Melinda Gates Foundation			
6/6/2024	6/30/2025	<b>MenAfriNet Meningitis Surveillance in Africa (MenAfriNet III)</b>	To establish and maintain a regional meningitis surveillance network in sub-Saharan Africa, including to evaluate the effectiveness and impact of multivalent meningococcal conjugate vaccine introduced in sub-Saharan Africa Meningitis Belt countries and provide technical support to maintain cased based surveillance systems in Burkina Faso and Niger.				\$690,000.00
				Bill & Melinda Gates Foundation*	\$690,000.00		
12/1/2019	12/31/2023	<b>Million Hearts 2020</b>	To provide a health communication campaign related to heart disease education and prevention in the United States with the goal of informing Americans ages 35-64 of the risk factors of heart disease and stroke and inspiring action.				\$11,300,000.00
				Amgen Inc.			
				Bayer Corporation			
7/1/2019	6/30/2023	<b>Monitoring E-Cigarette Use Among Youth</b>	To generate scientifically defensible and rapidly available data to assess the effectiveness of e-cigarette flavor restriction policies, the Monitoring the E-cigarette Use Among Youth in Select U.S. Cities and States program has been underway since 2019 with program activities that include: 1) analyzing retail sales data for e-cigarettes and other tobacco products and 2) implementing surveys to collect timely estimates of e-cigarette use and related behaviors among youth and young adults.				\$13,700,000.00
				Bloomberg Philanthropies			
4/7/2020	Ongoing	<b>Monitoring Health Outcomes of Assisted Reproductive Technology</b>	To provide research support for analysis of outcomes of assisted reproductive technologies.				\$662,072.00
				Open Philanthropy Project Fund			
6/1/2019	9/30/2025	<b>Monitoring Malaria Treatment in the United States</b>	To collect, manage and analyze data on the safety and efficacy of tafenoquine (Krintafel) used for anti-relapse therapy of malaria in the United States.				\$139,299.00
				GlaxoSmithKline Biologicals S.A.			
1/1/2007	6/30/2024	<b>Monitoring the Global Tobacco Epidemic</b>	To support the Bloomberg Initiative to Reduce Tobacco Use by creating, launching and implementing components of the Global Tobacco Surveillance System (GTSS) as well as capacity enhancement for tobacco control programs in high-burden tobacco use countries.				\$113,559,140.00
				Bloomberg Philanthropies			
				Emory University			
				Various Individual Contributors			
2/26/2021	5/2/2024	<b>Mosquito Cryopreservation and Female Elimination</b>	To support cryopreservation and suppression of female development in mosquitoes to assist research for malaria control.				\$672,500.00
				Good Ventures Foundation			
				Open Philanthropy Project Fund			
10/28/2019	Ongoing	<b>Multi-Center Zoliflodacin Study</b>	To evaluate the efficacy of a single oral dose of zoliflodacin in treatment of patients with uncomplicated gonorrhoea.				\$846,434.63
				Global Antibiotic Research & Development Partnership (GARDP Foundation)			
1/15/2024	9/15/2025	<b>National Action Plan for Health Security Toolkit Benchmarks</b>	To continue to increase health security in countries by improving their capacity and expanding support using new and more relevant tools of the National Action Plan for Health Security (NAPHS) Toolkit in at least six countries.				\$499,992.21

Start Date	End Date	Program Name	Program Description	Funding Partner (* Indicates a funding partner in CDC fiscal year)	Committed Award	Cash	Cumulative Funding (All Years)
				Resolve to Save Lives, Inc.*	\$499,992.21		
8/1/2018	10/31/2024	<b>Newborn Screening of Spinal Muscular Atrophy</b>	To expedite the implementation of newborn screening for spinal muscular atrophy to prevent childhood death and disability.				\$1,500,000.00
				Biogen MA Inc.			
7/1/2022	11/30/2024	<b>Next Generation Multipurpose Intravaginal Ring Technology Using Innovative Continuous Liquid Interface Production (CLIP)</b>	To evaluate the safety, pharmacokinetics (PK), and efficacy of macaque-sized CLIP 3D printed intravaginal rings (IVRs) loaded with the potent antiretroviral Islatravir® (EFdA) when administered vaginally to pigtailed macaques.				\$272,150.00
				University of North Carolina at Chapel Hill*	\$93,163.00		
11/23/2015	11/28/2023	<b>Opt-Out Chlamydia Screening Effectiveness</b>	To explore the effectiveness of opt-out chlamydia screening via electronic health record prompt and to increase the percentage of women under the age of 25 who are screened for chlamydia at clinical encounters.				\$709,002.00
				Hologic Inc.			
9/1/2021	8/31/2025	<b>Origin of Innate Immunity Suppression</b>	To further research how viral ovarian tumor protease (vOTU) activity is critical for replication and host tropism of nairoviruses.				\$470,834.65
				University of California, Riverside*	\$226,712.43		
7/20/2022	6/30/2025	<b>Pathogenic Paramyxovirus Replication in BSL-4 Containment</b>	To develop cell culture and small animal models of Nipah virus replication and pathogenesis in a biosafety level (BSL) 4 lab.				\$2,791,302.00
				Bill & Melinda Gates Foundation			
9/20/2019	3/19/2023	<b>Per- and Polyfluoroalkyl Substances Firefighter Exposures and Toxicity</b>	To understand and assess firefighters' exposure to per- and polyfluoroalkyl substances (PFAS) and its impact.				\$131,532.00
				The University of Arizona			
11/1/2022	10/31/2024	<b>PLACES: Local Data for Better Health</b>	To produce and disseminate high-quality, small-area health data that compose the Population-Level Analysis and Community Estimates (PLACES) public health data resource.				\$1,399,700.00
				Robert Wood Johnson Foundation			
4/5/2019	3/31/2024	<b>Pneumococcal Conjugate Vaccine Surveillance and Evaluation in Burkina Faso</b>	To support the introduction of a change in Burkina Faso's infant pneumococcal vaccine schedule to include a booster dose and to evaluate the impact of the country's capacity to control pneumococcal disease among children and adults.				\$3,824,907.00
				Bill & Melinda Gates Foundation			
1/1/2020	12/31/2024	<b>Preventing Child Sexual Abuse in Youth-Serving Organizations</b>	To provide effective, evidence-based guidance for proactively protecting children and youth from sexual abuse in youth-serving organizations.				\$1,212,075.00
				Oak Foundation			
				Porticus Foundation			
				World Childhood Foundation USA			
7/1/2021	7/31/2025	<b>Preventing Global Child Sexual Abuse</b>	To strengthen the evidence base for primary prevention of youth- or adult-perpetrated child sexual abuse.				\$5,785,842.00
				Oak Foundation			
9/14/2020	9/13/2025	<b>Preventing Older Adult Falls and Fall Injuries</b>	To prevent and protect older adults from sustaining falls and fall-related injuries by developing and implementing a risk factor prevention program.				\$4,541,535.78
				Amgen Inc.			
1/1/2024	12/31/2024	<b>Preparing Gulf State Communities to Meet Health Challenges</b>	To support implementation of local disaster preparedness programs through community-based organizations in U.S. states surrounding the Gulf of Mexico, with a special focus on coastal communities. The project will accelerate adaptation efforts and increase local resilience by building the capacity of communities to plan for and address the negative health effects of weather-related events.				\$1,248,578.88
				National Academy of Science*	\$1,248,578.88		
9/23/2021	6/30/2024	<b>Rotavirus Vaccine Effectiveness and Safety in Nigeria and Indonesia</b>	To strengthen sentinel rotavirus surveillance in Nigeria and Indonesia and enable monitoring of trends in rotavirus hospitalizations pre- and post-vaccine introduction in order to observe the impact of rotavirus vaccines and serve as a platform for case-control evaluations of rotavirus vaccine effectiveness.				\$1,087,608.00
				Bill & Melinda Gates Foundation			

Start Date	End Date	Program Name	Program Description	Funding Partner (* Indicates a funding partner in CDC fiscal year)	Committed Award	Cash	Cumulative Funding (All Years)
10/26/2023	6/30/2028	<b>Rotavirus Vaccine effectiveness and safety in Nigeria</b>	To support vaccine impact, effectiveness, and safety studies of Rotavac, an Indian-manufactured vaccine, that will be introduced and rolled out across all regions of Nigeria.				\$1,966,885.00
				Bill & Melinda Gates Foundation*	\$1,966,885.00		
9/17/2023	8/31/2027	<b>Rotavirus Vaccine Effectiveness in Indonesia</b>	To support vaccine impact, effectiveness, and safety studies of rotavirus vaccine introduced and rolled out across all regions of Indonesia.				\$3,035,396.00
				Bill & Melinda Gates Foundation			
4/1/2022	12/31/2025	<b>Rotavirus Vaccine Impact and Effectiveness Assessments</b>	To ensure impact and effectiveness of rotavirus vaccines and sustain vaccine use by policy makers, physicians and parents to increase the speed of adoption of vaccine by other countries in Africa and around the world.				\$745,009.00
				Gavi Alliance			
12/4/2019	8/31/2024	<b>RSV Genomic Surveillance Leveraging the Global Influenza Surveillance and Response System</b>	To generate Respiratory Syncytial Virus (RSV) genomic surveillance data from low- and middle-income countries leveraging the RSV Global Influenza Surveillance and Response System (GISRS) platform.				\$2,084,731.00
				Bill & Melinda Gates Foundation			
10/1/2022	2/15/2025	<b>Safety and Pharmacokinetics of Hydrogel Implants</b>	To assess in vivo safety and pharmacokinetics of CAB/LNG hydrogel implants placed subcutaneously in the back of 8 normal cycling female pigtailed macaques for up to 6 months.				\$92,133.00
				Eastern Virginia Medical School			
4/3/2015	7/31/2025	<b>Sickle Cell Data Collection</b>	To build the framework for collecting data about individuals in the United States with sickle cell disease in order to monitor their health outcomes, evaluate current systems of care and inform the development of a comprehensive care model to meet the needs of these individuals throughout their life.				\$3,872,636.00
				Biogen MA Inc.			
				Bioverativ Inc.			
				Doris Duke Charitable Foundation, Inc.			
				Global Blood Therapeutics, Inc.			
				Gods Garden*		\$2,000.00	
				Novartis US Foundation			
				Pfizer Inc.			
				Sanofi Genzyme			
				Vertex Pharmaceuticals Incorporated			
10/1/2019	9/30/2024	<b>Strengthening Global Cardiovascular Health Systems Phase II</b>	To reduce the burden of cardiovascular diseases in low- and middle-income countries by providing technical expertise, facilitating technical packages, building Field Epidemiology Training Program (FETP) workforce capacity, establishing a consortium of experts and collaborating with governmental agencies and partners.				\$4,503,000.00
				Bloomberg Philanthropies			
8/27/2022	7/31/2025	<b>Support for Inactivated Rotavirus Vaccine</b>	To support chemistry, manufacturing and control (CMC) and preclinical development of an inactivated rotavirus vaccine.				\$1,277,615.00
				Bill & Melinda Gates Foundation			
4/16/2021	10/31/2023	<b>Support for Malaria Control and Elimination in Tanzania</b>	To establish local molecular, genetics and genomic laboratory and analytical capacity to support malaria surveillance in Tanzania.				\$318,700.00
				National Institute for Medical Research (Tanzania)			
8/12/2024	3/31/2025	<b>Supporting the WHO-coordinated Global Rotavirus Surveillance Network</b>	To leverage the World Health Organization (WHO) Global Rotavirus Surveillance Network (GRSN) by using novel technology to achieve a better understanding of the role of enteric pathogens other than rotavirus in childhood diarrhea requiring hospitalization and create the Global Pediatric Diarrheal Surveillance Network (GPDS).				\$569,758.54
				World Health Organization*	\$569,758.54		
11/1/2017	6/30/2024	<b>Supporting Water and Hygiene Infrastructure in Africa</b>	To implement a two-phased approach to provide short- and long-term solutions to the problem of inadequate water, sanitation and hygiene infrastructure in low-resource settings in Burkina Faso, Ethiopia, Ghana and Uganda.				\$1,700,000.00
				Conrad N. Hilton Foundation			

Start Date	End Date	Program Name	Program Description	Funding Partner (* Indicates a funding partner in CDC fiscal year)	Committed Award	Cash	Cumulative Funding (All Years)
12/1/2021	7/31/2025	<b>Technical Assistance for Pneumococcal Carriage Study Burkina Faso</b>	To assess the impact of the Pneumococcal conjugate vaccine catch up campaign among internally displaced populations in the northern Sahel region of Burkina Faso. This effort will implement and evaluate the impact of changing the pneumococcal conjugate vaccine schedule.				\$347,348.00
				Davycas International*	\$75.00		
12/7/2009	Ongoing	<b>Together for Girls</b>	To enable CDC to work with individual countries and regions to quantify the problem of sexual violence against girls and subsequently develop evidence-based policies and programs to protect children and prevent violence.				\$1,826,783.80
				BD			
				Henry Schein Cares Foundation			
				Nduna Foundation			
				United Nations Development Programme			
				Various Individual Contributors			
7/1/2023	6/30/2025	<b>Understanding and Preventing Drowning</b>	To support efforts to improve data around drowning incidents in the US, provide basic swimming and water safety skills training in US areas with a high burden of drowning, and support findings from Ghana and India on circumstances of drowning.				\$6,000,000.00
				Bloomberg Philanthropies			
8/1/2019	7/31/2024	<b>Understanding the Effects of Hormones in Preventing HIV Infection</b>	CDC lab performs flow cytology, intracellular cytokine staining and rectal extract challenge assays on specimens to help inform HIV prevention efforts.				\$875,691.00
				Emory University*	\$166,488.00		
6/1/2016	10/31/2023	<b>Vector Stock and Reagent Repository for Research</b>	To maintain, produce, authenticate and distribute arthropod vectors and associated reagents for the Microbiology and Infectious Diseases Biological Research Resources (MID-BRR) Program.				\$3,660,819.16
				American Type Culture Collection*	\$27,079.20		
7/1/2018	12/31/2027	<b>Z-CAN: Finish Strong</b>	To complete the Zika Contraceptive Access Network (Z-CAN) through data collection, evaluation and dissemination.				\$400,000.00
				Bayer U.S. LLC
